Dr. Donald R. Johnson
Room A366, Building 221
National Bureau of Standards
Gaithersburg, Maryland 20899

Dear Dr. Johnson:

On behalf of the students and staff involved in the Agency's first Seminar on S&T Forecasting, I would like to express our appreciation for your presentation on biotechnology and the relevant activities at the National Bureau of Standards. The Seminar was a success in a large part due to the briefings by you and other experts from the Government and industry.

We appreciate your support of the Office of Training and Education training program. I hope we can continue to call upon you for any future S&T forecasting seminars we may sponsor.

Sincerely,

Director
of
Training and Education
